Five Thousand Teachers and Scholars Reported on To-Day's Sick Lists.

La Grippe has invaded the public schools and holds more than 5,000 papils and teachers n its clutches this morning.

Supt. Jasper and his assistants, Mesera. Jameson and Calkins, have been victims, and Commissioner Adolph Sanger is just recovering from an attack of the malady.

The sick list of teachers was never larger at

one time. All the supernumerary teachers are kept busy supplying the places of the sufferers. The decrease in attendance at the schools furnishes the best indication of the prevalence of the epidemic. Several new schools were opened last month, but instead of a natural marked decrease, the absentees numbering 1,548 in February.

among the children will not be officially known until to-morrow, when the reports for March will be received by Supt. Jasper.

The 'rgrip," however, is not alone responsi-ble for the assence of all the scholars. Meas-ales has made its appearance in the Twenty-tnird and Tweifth Wards, and many children in those districts are kept at home on that account.
This police sick list keeps on growing. This morning more than two hundred men were reported ill, an increase of twelve since yester-

has lost its grip, and that the deaths will be fewer this week than they were last week.

From Youkers, Health Officer Browne reports that there are 100 cases in that city.

Among la grippe's latest notable victims are Fatuer Dumphy, of White Piains, and ex-Gov.
